

CORPORATE PLAN 2020-22

Bury Council and NHS Bury CCG

Our Corporate Plan 2020/22 sets out key themes, principles and deliverables to support the Borough of Bury as it recovers from the local impact of the Covid-19 pandemic and builds a better and brighter future for our people, communities and businesses. Through this plan we set out the foundations from which new relationships, responsibilities and outcomes will emerge to support delivery of the Bury 2030 Strategy.

Introduction

Welcome to our Corporate Plan 2020/22.

In 2015 NHS Bury Clinical Commissioning Group (CCG) and Bury Council committed to working closer together to integrate health and care services in Bury. The appointment of a single and joint Chief Executive of Bury Council and Accountable Officer for the CCG in 2018 cemented this commitment and enabled us to join up 'everything the Council does' with the CCG and, through shared objectives, to further improve the health and wellbeing of the people in the Borough and bring to bear the full powers, influence, resources and capabilities of both organisations.

The partnership is now working to deliver its role in the Bury 2030 Strategy – the 10-year vision for the whole Borough, which will improve life chances for everyone through:

- five clear commitments to make significant progress in carbon neutrality; healthy lives; economically strong; inclusive and digitally enabled by 2030
- the five delivery themes of the local industrial strategy: people, place, ideas, infrastructure and business environment; and
- four principles of ways of working from which we all operate to drive *inspiration; aspiration; participation* and *collaboration*

This plan describes how, through the joint working of the Council and CCG through the four departments and One Commissioning Organisation, the partnership will work together to contribute to the Borough Strategy over the next two years. It describes the work of our teams; the priorities we are working towards and the outcomes we are committing to achieve.

All of this work is required at a time of great national challenge and uncertainty because of the Covid-19 pandemic. At the time of writing the vaccination programme is in development; infection levels remain highly unstable and there are huge demands on the Council and CCG to lead the local public health response; protect the NHS and support the community in conjunction with private and voluntary sector partners. The economic and health impacts of Covid-19 remain unclear but there is no doubt they will make our mission to reduce inequalities harder and increase the challenges to achieving economic growth and improving the quality of life for local people.

Our response to the Covid-19 pandemic as a health and care system has generated a momentum that we must keep hold of whilst we strive for a safe and sustainable recovery from the emergency. This is a catalyst for change that will create new ways of receiving services, new ways of working and a different relationship with our residents and our communities. The learning from our experiences will help drive and deliver real improvements.

Our Corporate Plan sets out our priority deliverables for the next two years in this context, as a platform to harness the very best of our partnership. It is aligned to the Locality Plan and supports the delivery of the ambition to secure transformational improvement in population health so that residents are in control of their lives and enabled through a joined-up health and care system. There are exciting plans proposed but some tough decisions too. We will track our progress on this challenging journey through a new outcomes' framework and the delivery of our budget strategy.

Let's do it!

Who we are

The Council and CCG partnership is organised as for departments and a One Commissioning Organisation.

The Business Growth and Infrastructure department leads:

- Strategic development strategy and functions of the Council including the Local Plan;
- The Council's capital development programme;
- Town planning and building control functions;
- Housing strategy development including the relationship with the private rented sector.

The Children and Young People's department:

- Provides universal and targeted early help support for the Borough's children, including:
 - Supporting 1136 vulnerable children, including 358 for whom we are their Corporate Parent and a further 140 who are supported into adulthood after leaving care;
 - Providing dedicated support to early years settings and child minders who provide 5,550 places to the Borough's pre-school children;
 - Supporting the leadership of 80 schools across the Borough, enabling head teachers to delivery high quality education for 29,000 children;
 - Providing strategic leadership around inclusion and statutory support for children with additional needs and disabilities;
 - Delivering services targeted at supporting young people through provision of youth work and education, training and employment support.

The Corporate Core:

- Leads the corporate strategy functions across the Council and CCG and co-ordinates the Team Bury network of public, private and community partners;
- Provides professional enabling services including HR, communications, legal services and business support;
- Provides the partnership's governance and democratic functions, including support to the council's 51 Elected Members and the CCG Membership, Governing Body and committees.

Finance sits alongside the Corporate Core and

- Leads on the medium-term financial strategy, providing strategic oversight and guidance on financial sustainability and resilience;
- Provides stewardship over all financial activities across the Council and CCG;
- Provides and delivers effective payment mechanisms for staff, providers and suppliers;
- Delivers an internal audit function to support and report on governance specifically for the Council; and
- Delivers revenue, benefits and welfare services to our residents and businesses.

The **Operations** department is responsible for:

- All environmental services operated by the Council including waste management, street cleansing and grounds maintenance;
- Management of all highways, street lighting and engineering;
- Operation of the Council's leisure, civic and regulatory services;
- A range of commercial services including Bury Markets, Schools catering, caretaking and cleaning;
- Facilities management; and
- Refuse collection.

The '**One Commissioning Organisation**' (OCO) brings together all the health and social care commissioning functions of the CCG and Council into one structure. It is responsible for:

- The health of the Borough's residents through its public health functions and by leading a single strategy for health and care commissioning;
- Managing a pooled budget of all our combined health and care funding;
- Ensuring robust clinical leadership to enable delivery of a wide-reaching health and care transformation delivery programmes;
- Delivery of statutory requirements across primary, secondary and community commissioning, safeguarding practice and quality;
- Ensuring the services that we commission are of a high quality and people have a good experience of their local services;
- Ensuring the public are protected through integrated safeguarding practices and safe services.

What we do

Operate a significant number of individual services from a range of buildings across the Borough

provide leadership to 80 schools and education to 29,000 children

answer 228,075 calls into our services every year

registered 1736 births; 1955 deaths; and 436 marriages last year

receive 15000 contacts each year in relation to Adult Social Care leading to 5000 assessments; provide support to between 3500-4000 adult social care users at any one time

are parents to 358 Looked After Children

employ 5873 staff across all our services

a pooled budget for health and care spend of £0.4bn

manage 660km of carriageway, 300km of footpath, 19,000 street lighting columns, 36,500 street gullies and 400ha of green space

Collected waste from 83,500 households; and recycled 33,090.42 tonnes of waste last year

operate 118 healthcare contracts across the Bury area

purchase a range of health care and services for 190,000 people including 72,880 A&E attendance, 25,435 hospital appointments for planned care, 26,480 treatments on an emergency basis and 157,130 follow-up hospital appointments

own a stock of council houses

Where are we now

This is an exciting time for Bury Council and CCG.

Under the leadership of a new Executive team we have established system-wide leadership of the health and care system including a One Commissioning Organisation and a Local Care Organisation. Together, we have developed a Locality Plan which sets out an ambitious plan to guide this partnership over the coming years.

The Council and CCG have led the wider Borough partnership to develop a strategy and clear plan for the next ten years, **Bury 2030**, which describes the outcomes; activities and behavioural shift we want to achieve to drive life chances for all our residents.

Our hard work is paying off. Major **regeneration** initiatives are beginning to reach a positive conclusion - the strategic regeneration framework for Radcliffe has now been agreed and we are waiting to see if a new high school is approved by the Department of Education.

This year Bury was awarded the accolade of being the first **Greater Manchester Town of Culture** and the quality of our parks and public spaces continues to be recognised through our reaccreditation of **Purple Flag town centres** and **12 Green Flag parks**.

There are, however, significant **challenges** ahead. The gap in healthy life expectancy between those who live in the most and least affluent parts of our Borough is, after decades of improvement, starting to widen; the measure of deprivation in our towns is stagnating and our educational attainment is not as good as it was. We have also made a challenging

commitment to be carbon neutral by 2038 which will require radical change across all aspects of our lives.

The resources we have to be able to tackle these issues also continue to be challenging. Council and CCG budgets have reduced year-on-year and the forecast for the next two years is no less difficult. This is further exacerbated by the impact of Covid-19 and the lack of any certainty around future funding.

Based on the latest information:

- savings of c£70m will be required by the Council over the next 4 years, and
- the CCG began 20/21 with a financial gap of £20m and requirement to save c£40m over the next 4 years – the ongoing national changes to financial and contracting frameworks and funding methodologies puts a great deal of uncertainty on these original forecasts, but it is clear that the impact of Covid-19 will result in greater financial pressures to the system

These challenges all become much harder to address in the context of the **Covid pandemic**, of course. Sadly, we expect the health and economic impacts of the emergency to be far-reaching and the practical stretch in Council and CCG capacity between leading the local response and maintaining our focus on wider services and policy work is a challenge

This is the year to tackle these issues, however this requires major transformation of the way we deliver our services and manage our resources.

Local people deserve improvements in our local outcomes and the likely requirement to “live with Covid” for some time requires a relentless focus on economic recovery and community care and support.

Where do we want to get to

This plan explains how the Bury 2030 strategy will cascade into the practical delivery priorities of the Council and the CCG, through **four clear objectives** which have been defined for delivery by the partnership during 2020/22. These are to:

- Support the Borough through a robust **emergency response** to the Covid-19 pandemic
- Deliver our role in the Bury 2030 **local industrial strategy** priorities and recovery
- Lead a programme of **transformation** to establish the capabilities required to deliver the 2030 vision and embed the principles of *Inspiration, Aspiration, Participation* and *Collaboration* in all we do
- Secure financial sustainability through the delivery of the agreed **budget** strategy

Underpinning the priorities are the **equality** objectives which have been set by the partnership; are reviewed annually and driven by the Strategic Commissioning Board.

A high-level delivery plan against all priorities is provided, together with the key measures against which we will track our progress. We will measure:

- demonstrable **outcomes** which contribute to the Bury 2030 commitments to:
 - Carbon neutrality
 - Healthy Communities
 - Economic growth/recovery
 - Equalities and inclusion
 - Digital-first

- Improving **outputs**, measured through a new internal performance dashboard to monitor the performance of partnership organisations themselves

Whilst we have set a clear objective in respect to our **emergency response**, we recognise that all of our work, not only in the short and medium term but also the longer term, will need to take account of the local situation and will require careful prioritisation of all activity across the partnership.

Details of our four Corporate Plan objectives are described overleaf.

Our Objectives

Emergency Response and Recovery

We could never have predicted the scale or impact the Covid-19 pandemic. We responded promptly, with a focus on protecting the health and care system and delivery of an initial “ten point” recovery plan. We have now defined four clear priorities for the rest of 2020/21, to take us to the point of a vaccine. These are:

Containing COVID by managing:

- Infection prevention control including outbreak management
- Restrictions, including enforcement
- Tiers of intervention
- Test, trace and supporting self-isolation
- Mortality Planning
- Plans for the vaccination programme

Supporting our Health and Social Care System

- Planned, Urgent & Community based Health & Care
- Support for children in need of help and protection
- Population Health including mental health
- Strategic Finance

Mitigating the impacts by supporting

- children and families deemed vulnerable, to reduce the risks of widening inequalities;
- schools, early years providers and FE colleges to mitigate the detrimental impacts of Covid-19 on learning;
- establishing the Neighbourhood Model of integrated, early help, including community safety and cohesion;
- Business and town centres including local jobs.

Supporting Our Communities including

- Communications and engagement
- The provision of humanitarian aid; a network of volunteers; support to the lonely and those facing hardship through our Community Hubs.

Bury 2030 Local Industrial Strategy

We will drive the delivery of the Bury 2030 vision, with an initial focus only on those activities which drive recovery from the present emergency. This will include:

- the health, wellbeing and connectedness of our **people** through a new physical activity strategy; mental health review and embedding progress with community healthcare; children’s school readiness; early help and educational attainment
- Developing **Place** regeneration plans to the point of business case within Radcliffe, Prestwich and Bury town centre, including a One Public Estate
- Harnessing **Ideas** by implementing our inclusion strategy; strengthening the Youth Cabinet; a refresh of the Armed Forces’ Covenant and new strategy for the voluntary & community sector
- **Infrastructure** improvements including 5G roll out; progression of the Highways Investment Strategy and the creation of more cycling and walking routes. We will implement the housing strategy, including homelessness prevention
- Local **Business** will benefit from large-scale land release in the Northern Gateway; a skills strategy and a Covid-19 economic recovery strategy, with a focus on local spend

'Business Excellence' Transformation

To deliver improved outcomes and secure financial sustainability, an internal and external transformation programme will begin, according to the principles of business excellence:

Investment in **Leadership** will include Elected Member and senior officer development strategies; the development of a clear joint vision and identity and staff engagement plan;

Partnership resources will be corralled in a neighbourhood model within each township, to mitigate demand and take pressure off statutory services through joined-up, all-age “early help” and mainstreamed community hubs;

Our **workforce** will be developed including a refreshed induction; apprenticeship strategy and updated core skills programme to maximise our resources and target our work in the right places; and

All **processes** will be reviewed to establish integrated and efficient business processes which enshrine the five Bury 2030 Commitments, in particular a digital-first approach.

Financial Sustainability

The Council is facing a forecast financial gap of c£21m by 2022 as a result of Government spending restrictions; demand increases for statutory services and additional pressures as a result of Covid pressures not covered by Government grants. The forecast for the CCG will be determined when national announcements are made.

In balancing our budget, we will look to:

- Make changes and efficiencies to our services which are aligned with the Bury 2030 pledges, to ensure decisions on resources match policy commitments as far as possible. Proposals for the next 12 months are described below;
- use our reserves to balance the need to support short-term funding gaps whilst recognising the need to deliver ongoing savings; and
- Introduce a new operating model that will increase the time we spend on delivery by removing duplicated and fragmented systems and processes.

Carbon Neutrality	Healthy Communities	Economic Growth	Equalities and Inclusion	Digital First
<ul style="list-style-type: none"> • reduction in the Council's fleet ; • more efficient waste collection rounds; • streetlight dimming; • introduction of district parking charges 	<ul style="list-style-type: none"> • development of community-based health model to keep people well for longer and reduce demand for and provision of statutory social care packages; • a review of all children's social care services to take every opportunity for efficient provision 	<ul style="list-style-type: none"> • creation of opportunities for all Bury people to access the wealth that economic growth brings and thereby reduce demand for reactive services 	<ul style="list-style-type: none"> • review of the provision for vulnerable people including all-age learning disability • deliver efficiencies by transforming our offer, targeting resources and continuously improving what we do 	<ul style="list-style-type: none"> • number of office locations will be reduced and staff enabled to work flexibly; • Full use of digital technologies to maximise the efficiency of our operations • extended reach into the community to reduce the costs of our processes and communication

Inclusion at our Core

Between 2016 – 2020 the Council has been working to the equalities objectives of taking action to 1) tackle unwanted behaviour; 2) reduce the proportion of unknown workforce data and 3) work to digital include more of our employees. A report against progress was produced in 2019: “Three years on” which set out the further work required.

The CCG has been working to 1) Improved equality monitoring data collection across all NHS services; 2) Develop an effective partnership approach to delivering robust responsive Services; 3) Being an employer who embraces the concept of work life balance and 4) Being an Inclusive Leader.

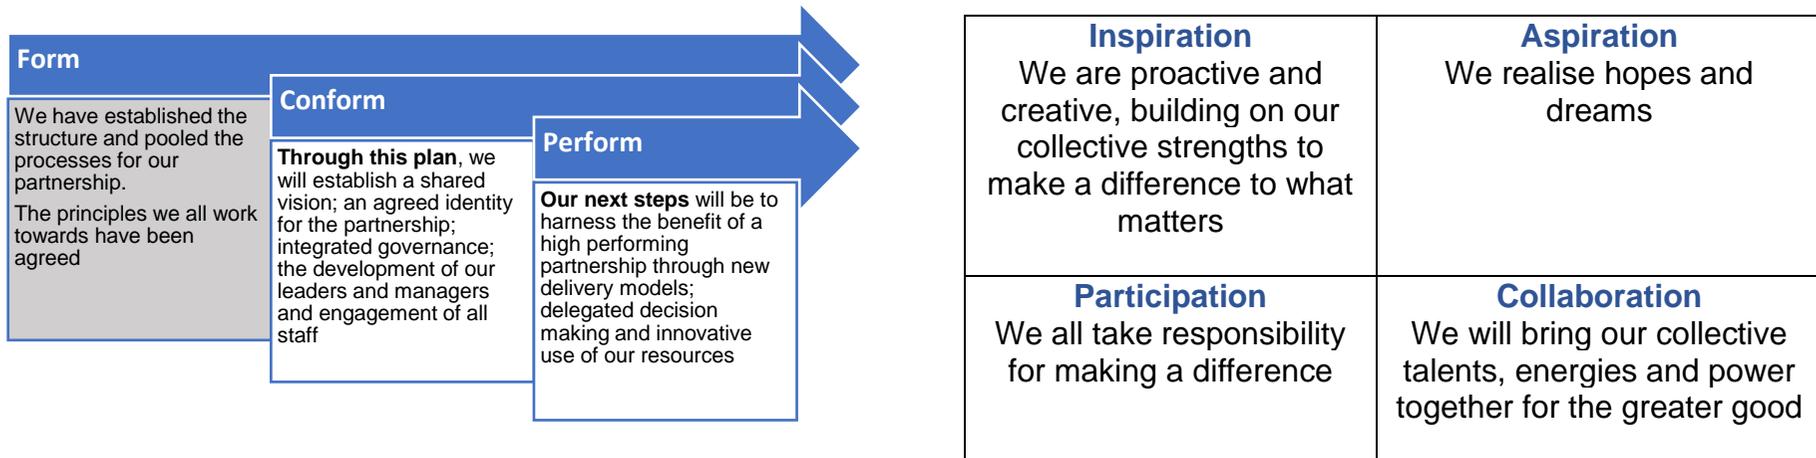

Both partners recognised that there is more to do to make progress to fulfil these objectives. A joint, independent equalities review was therefore undertaken in 2020, from which an Inclusion strategy was agreed, and the following equalities objectives have been set as required by the Equalities Act 2010. Detailed actions are included in the action plan appended:

1. **Performance and Scrutiny:** establish effective governance arrangements in order to ensure there is a robust performance and scrutiny function;
2. **Equality Data and Information:** To use data more effectively to promote equality in all decisions made by the Council and the CCG and to help ensure they give due regard to the general equality duty;
3. **Community Engagement:** develop inclusive community engagement structures in order to strengthen community engagement opportunities for the Borough’s diverse communities;
4. **Representative Workforce:** to take steps towards having workforces that are representative of the diversity of the local population;
5. **Training and Learning:** to raise awareness of people’s rights and responsibilities and to aid the delivery and embedding of the Inclusion Strategy;
6. **Improve user access and experience:** by seeking effective assurance from providers, where appropriate and embedding EDHR into commissioning;
7. **Framework Delivery:** take action to adopt and ensure real progress is made on the implementation of Workforce Race Equality Standard (WRES), the Workforce Disability Equality Standard (WDES), Equality and Delivery System2 (EDS2) and Equality Framework for Local Government (EFLG)

How we will deliver

The Bury 2030 strategy sets out a clear set of principles which will be the basis of all work across the partnership: **Inspiration, Aspiration, Collaboration and Participation**.

The Council and CCG will lead by seeking to lead by example in demonstrating these principles in all work to deliver this plan. A phased programme of organisation development (OD) will be designed to determine what this really means and to equip leaders, managers and staff with the skills and understanding to adopt the new approach. A multi-year programme of change across our people, systems and processes is proposed to *form* the partnership, establish and *conform* to a corporate approach and then achieve high *performance* through optimised processes, systems and structures.

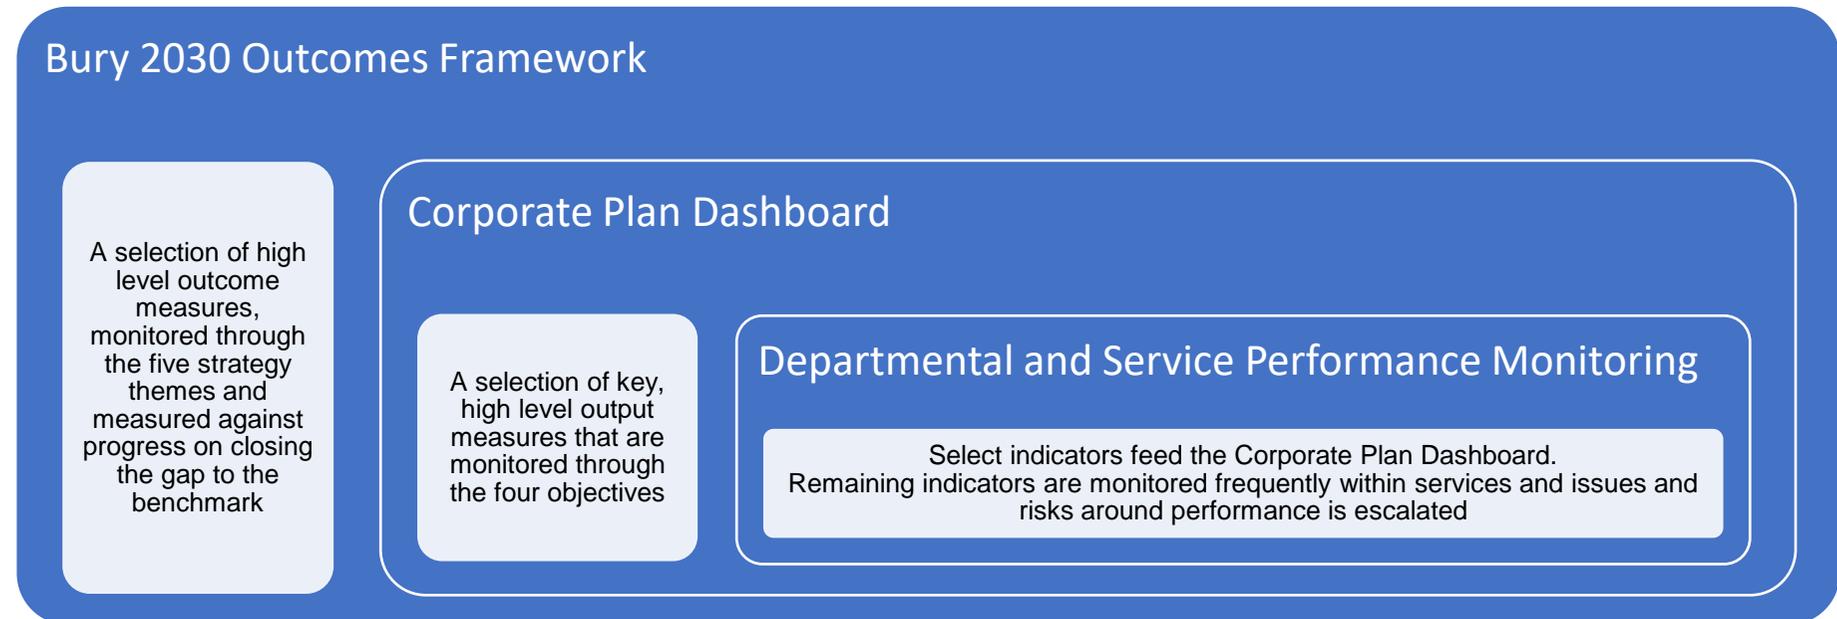

The journey to **high performance** begins as this plan is set, with a series of expectations about how we will work including:

- The performance management of all staff, led from the top, which evaluates behaviours as well as outputs
- Effective governance that ensures transparent decision making and management of delivery
- Evidence-based investment only
- An evidence-led understanding of risk and impact to ensure the right intervention at the right time
- Business cases for savings or investment tracked, delivered and evaluated
- Improvement targets monitored and achieved

Our Measures of Success

A **Corporate Performance Dashboard** will be implemented with this plan, which also follows the business excellence model and evaluates the result of the plan on people; society; customers and the organisation. Outputs and outcomes will be monitored quarterly and reported to the Council's Cabinet and CCG's Governing Body.

We will monitor our success against a range of metrics which have been presented against our four objectives overleaf.

Emergency Response and Recovery

- 1) Monitoring R number and Infection levels
- 2) Number of rough sleepers currently being supported
- 3) Number of rough sleepers moving into suitable accommodation
- 4) Visits to libraries and archives
- 5) Number of Kickstart placements
- 6) Attendance at targeted youth support groups
- 7) Numbers of children using fit and fed clubs
- 8) IMC Bed Occupancy
- 9) Residential and Nursing Care Bed Occupancy
- 10) Number of referrals to Adult Social Care
- 11) Number of Looked After Children
- 12) Number of Children In Need
- 13) Number of Child Protection Plans
- 14) Medically Optimised Awaiting Transfer
- 15) Number of Clinically Extremely Vulnerable supported through Community Hubs
- 16) Numbers accessing self isolation £500 benefit scheme

Bury 2030 Local Industrial Strategy

Infrastructure

- 1) Annual housing completions
- 2) Highway repairs completed on time
- 3) Street lighting faults completed on time

People

- 1) Breastfeeding prevalence at 6-8 weeks
- 2) School Readiness
- 3) Smoking prevalence in adults (18+)
- 4) Emergency hospital admissions due to falls
- 5) Dementia diagnosis rate (65+)
- 6) Live Well Services including BEATS referrals
- 7) Flu immunisation uptake high risk

Ideas

- 1) % parks and recreation grounds with friends of groups
- 2) New Personal Health Budgets
- 3) Numbers of volunteers engaged through the VCFA
- 4) Number of local offers on TBD

Place

- 1) Carbon emissions from council vehicles
- 2) All materials sent for Recycling, Composting and reuse
- 3) Green flags ?
- 4) Number of ASB complaints received by the council
- 5) Number of residential burglaries
- 6) Total number of violent crimes by young people

Business

- 1) Net business growth rate (start-ups minus dissolutions)
- 2) Number of business contacted through the Workplace Health
- 3) Number of individuals who have stayed in work or found a new role due to accessing the support of the Workplace Health Programme

'Business Excellence' Transformation

- 1) % Invoices paid within 10 and 30 days
- 2) Payment days for SMEs
- 3) Average time taken to repair street lighting
- 4) Average number of days in temporary accommodation
- 5) Number of housing complaints completed within 20 days
- 6) Number of empty properties brought back into use
- 7) High and medium food standards inspections completed
- 8) % uptake of primary school meals per school
- 9) Sickness absence: average number of days lost per FTE per year
- 10) Staff turnover
- 11) Employee engagement: overall satisfaction with Bury Council as an employer
- 12) FOIs completed on time
- 13) SARs completed on time
- 14) Complaints responded to within timescale / escalated to ombudsman
- 15) Contact centre – number of contacts
- 16) Prevent – Volume of Training for Council and CCG Staff

Financial Sustainability

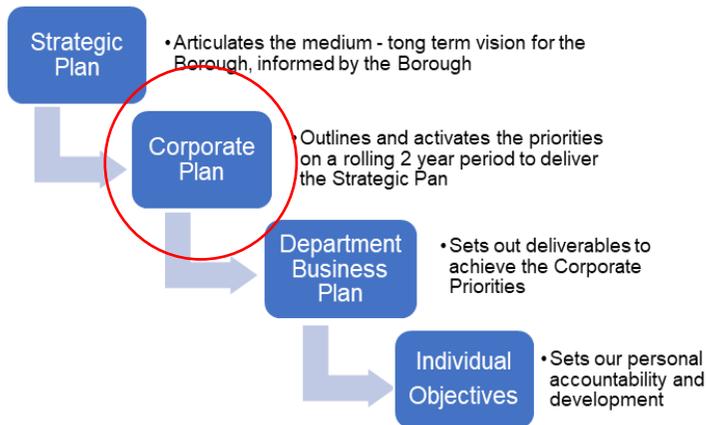

- 1) PCN collection rates
- 2) Council tax collection
- 3) Business rate collection
- 4) Debtor days above 30 days
- 5) Capital projects completed
- 6) Capital slippage
- 7) Departmental savings achieved
- 8) Total amount cashable savings from Health and Care Recovery schemes
- 9) Actuals against plan: CCG, Council, Pennine Care, Pennine Acute

Our Delivery Framework

This corporate plan drives the cascade of strategic objectives into tangible delivery. It translates both the Bury 2030 vision and operational priorities into detailed corporate and departmental plans and performance objectives for every member of staff to help us to:

- Clearly articulate our priorities and desired outcomes
- Prioritise what gets done within the resources available
- Provide and demonstrate value for money
- Provide good services and satisfaction for users and the local community
- Improve performance
- Motivate and manage our staff

The process begins in February each year when the Corporate Plan is presented for approval alongside the annual budget. The approval of strategic objectives forms the basis of the annual performance review of the Chief Executive/Accountable Officer, following which all other performance reviews can begin on the basis of cascaded objectives.

During the year the progress and impact of the Corporate Plan will be managed through quarterly reports to the Council's Cabinet and CCG Governing Body. Reports will:

- **track delivery** to confirm plans are being delivered; consider new priorities and revise work plans
- **report on outcomes** to evaluate the impact of our work on in improving the lives of our residents

“Deep dive” challenge on particular work plans will be welcomed through the Scrutiny function and CCG Sub Committee structure.
